

St Dominic's Centre Mayfield has extended to include education to students from Kindergarten through to Year 12. This promotes greater opportunities for students to access more and varied aspects of the curriculum, and also changes the perception of St Dominic's in the community.

This prompted consideration to other changes to the St Dominic's identity and a name change to be more reflective of the modern-day St Dominic's, where students are supported to reach their potential by providing holistic education enabling them to lead a fulfilling life post-education.

The new name 'St Dominic's Catholic College Mayfield', is consistent with other Diocesan secondary schools and the evolved approach at St Dominic's, being at the core of Catholic Education in preparing young adults for life post-school.

MAYFIELD

# Our New Crest

Shield: •

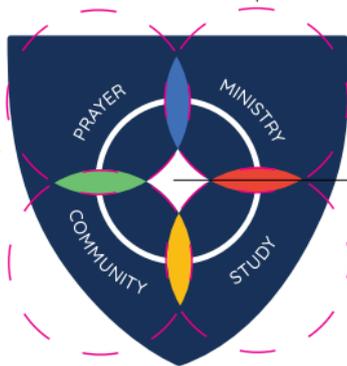

The contemporary shield design communicates strength, stability and longevity. A shield represents a sense of safety - key for the St Dominic's community.

Veritas: •

"Veritas" meaning "Truth" reminds us that St Dominic sought the truth of God and in his preaching, he shared this truth with others.

The Font: •

A modern, yet classic feel shows the school is moving forward without forgetting the past.

Shapes:

Shape created from the four reference pillar circles coming together - forming the child in the Dominican faith.

The four pillars are the standards of life that Dominicans live by. St. Dominic's is built upon these pillars, creating a faith-filled community where students of all faiths are able to grow in their personal spirituality.

Cross:

The St Dominic cross is at the centre to symbolise that faith is at the centre of the school community. The white reflects the joy and purity of Christ.

The cross inspiration at the centre of the crest maintains the link to the historical past.
